SUMMARY

Senior Web Developer Executive with over 3 years of experience leading web design teams to build seamless digital experiences. Specialized in Wordpress and Shopify, I integrate AI tools into the web development workflow to streamline processes, speed up execution, and deliver intuitive, visually engaging websites.

EXPERIENCE

Cloudix Digital / Senior Web Developer Executive

Sri Petaling, Kuala Lumpur / August 2024 - Present

- Lead the web design team from concept to launch, collaborating on UI/UX assets using Adobe Photoshop & Illustrator.
- Build custom Wordpress plugins, hooks, and WooCommerce logic using the Wordpress REST API to support complex business workflows.
- Leverage Claude to accelerate custom PHP coding, plugin development, and backend problem-solving.
- Develop dynamic layout grids utilizing Advanced Custom Fields (ACF) and implement multi-language support.
- Deploy and configure servers on DigitalOcean while actively troubleshooting system errors and performance logic issues.

Website Project

Skin-renew.com (January, 2026)

- Executed migration and redesign from Wordpress to Shopify to enhance site performance, e-commerce scale, and checkout speed.
- Integrated a WhatsApp feature to facilitate instant customer support, product inquiries, and appointment bookings.
- Leveraged Claude to rapidly generate custom code for bespoke Shopify page sections aligned with brand aesthetics.

Tamron.my (March, 2025)

- Designed and developed the official Wordpress website for Tamron Malaysia.
- Implemented a dual-language functionality plugin (English & Malay) for broader audience accessibility.
- Created and integrated an interactive community forum page to drive customer engagement.
- Ensured consistent visual alignment with the client's brand guidelines and user experience standards.

Motmfootballshirts.com (October, 2024)

- Built and configured an e-commerce website on Wordpress & WooCommerce specializing in authentic sports merchandise.
- Integrated modern payment gateways, including Atome BNPL and Apple Pay, to reduce cart abandonment.
- Set up automated shipping zone rules and calculation logic for both domestic and express international delivery.

Pemaju Digital Sdn Bhd / Web Designer cum Graphic Designer

Teluk Panglima Garang, Selangor / March 2024 - August 2024

- Designed and developed a website for clients using Wordpress.
- Research up-to-date design in alignment with the Client's brand and vision.

i2 Commerce Sdn Bhd / Wordpress Developer

Beranang, Selangor / October 2023 - December 2023

- Collaborate with graphic designers and copywriters to ensure seamless design and content elements integration into landing pages.
- Set up and configure hosting services compatible with the Client's requirements
